

Investor fact sheet — Georgia primary market.

Macro, returns, accessibility, and investor protections at a glance.

This is a placeholder fact sheet generated to prototype the Why-Georgia download library. The final fact sheet, with the latest numbers from Geostat, NBG, and the Primelist research desk, will replace it at the same URL.

Coverage: GDP growth, residential transaction volumes, prime rental yield ranges, EU candidate status & DCFTA, foreign-ownership rules, presale tax treatment, and one-page risk dashboard.

For the latest numbered version: welcome@primelistinvest.com.

Placeholder PDF — Primelist Invest research desk. Replace with the final report when supplied.
